

**Tours 2015**

## MEXICO SPECIAL OPERATIONS TOUR B

FLIGHT TO THE MEXICAN ARMY, AIR FORCE AND NAVY.

**ONLY FOR CIVILIAN VA'S.**

*Welcome to the Mexico 2015 Tour B. This is a chance for those who don't care to fly Military aircraft, but would like to participate in Special Operations. In the real world, there are times when Civilian Airlines are contracted to ferry troops or cargo. This is what this tour is about!*

The Mexican army, air force and navy, count with many aircraft for different task.

The transport aircraft are in the limit of the operability, doing many tasks inside and outside of the country. Other aircraft's are in their naval and air forces bases under maintenance.

For that reason, the Mexico government, it's contracting civilian airlines to make different flights of military type, because the operative military aircraft are busy flying missions.

## RULES:

- Fly only the aircraft for each leg.
- Use the same callsign all the Tour.
- Follow the Special Rules for each leg.
- Follow the route of the leg if are specified.
- Maximum Flight Level: FL410 (except on supersonic leg and exercise).
- Maximum speed: 350 KIAS below FL100 - Mach 0.84 below FL410 (except on supersonic leg and exercise).
- In Mexican Air Space, Cruise Flight Level: Between 000° and 179° - ODD | Between 180° and 359° - EVEN.
- Is Mandatory, Download and Install the Scenery required. Suggest sceneries are not mandatory.

[Click here to view the scenery List!](#)

## GENERAL RULES.

- You must fly online.
- You must fly with IVAO weather.
- You must communicate on UNICOM (122.800 MHz), otherwise you can be excluded from the tour.
- You must start by the first segment, report it and continue flying consecutive until you complete all the legs, otherwise all the reports will be rejected.
- Schedule without limitations.
- All the segments must be flown online and in Normal Simulation (1x), made a full stop on the airport destination and report the segment, otherwise it will be rejected.
- After you agree with all the terms mentioned above, enjoy of this wonderful Tour that was made especially for all IVAO Members.

## REPORTS.

- If you fly passing 00:00 UTC you should report with take off date and time.
- If your connection to the server fails and you change your callsign during the flight, you must indicate that in your flight report in "Comments". Maximum time allowed to be offline: 20 minutes.
- Avoid rejects; report your departure and arrival time in UTC (ZULU) Time.

## ADVICES.

- Stay online for 5 minutes on apron before disconnecting so the tracker can check you landed, otherwise the validators may not accept your leg.
- Check your flight plan, mainly departure and destination airports, type of aircraft and flight rules.
- Don't get confused with connection-disconnection time and take off-landing time.
